

.Net Developer Job (Fresher can also apply)

Description

We are looking for a .Net developer to build software using C# language and technologies of the .NET framework. In this role, you should be able to write functional code with a sharp eye for spotting defects.

Responsibilities

- Develop software and services, including efficient searching and maintenance of databases.
- Participate in requirements analysis
- Collaborate with internal teams to produce software design and architecture
- Write clean, scalable code using .NET programming languages
- Test and deploy applications and systems
- Revise, update, refactor and debug code
- Improve existing software
- Develop documentation throughout the software development life cycle (SDLC)

Skills

- Familiarity with the C#, WPF, Windows, My SQL, MS Access
- Knowledge of at least one of the .NET languages (C#)
- Familiarity with architecture styles/APIs (REST, RPC)
- Excellent troubleshooting
- Attention to detail
